

# Government Grant Time Estimate

Connected Philanthropy has a rich history of securing local, state, and federal government grants, including renowned institutions such as HRSA, CDC, Ryan White, DOJ, DOE, and more.

Connected Philanthropy specializes in completing Federally Qualified Health Center (FQHC) and Federal Look-Alike Service Area Competition (SAC) applications and renewals.

Our government grant services include comprehensive project management from the beginning to the end of the project, including proposal development, budgets, logic models, sustainability and evaluation planning, and gathering all attachments for submission.

The time estimates below ensure transparency and predictability, ranging from low to high effort, allowing you to plan your resources effectively.

Take advantage of the opportunity to maximize your chances of grant success with Connected Philanthropy's unparalleled expertise in the field of government grant applications!

## Time Estimations

### Low Effort

Time estimates are for formatting to meet funder requirements.

- Client supplies narrative and template from prior applications
- Attachments are ready to go including budget, logic model, project timeline and evaluation, budgets, and financials

### Medium Effort

Time estimates include project management, writing, formatting, and prepping attachments.

- Client supplies limited organizational history, narratives, and attachments. Some writing and formatting will need to be done to complete the application.

### High Effort

Time estimates include project management, full preparation of proposal, formatting and all drafting attachments.

- Client has limited information drafted and does not have most of the attachments.
- Most of the application and attachments will need to be developed.

The time estimations for completing government grant applications is based on prior applications of similar size and scope. A project based scope of work and budget for services will be provided prior to engagement. Client collaboration and responsiveness is important to managing hours and costs for completion. Coordinating attachments, budgets, financials, and internal approvals is key to success.
